

RSD COVID-19 Safety and School Opening Plan for 2020-21 Updates

March 22, 2021:

Student and Staff
COVID-19 Testing
Update

With the passage of California Assembly Bill 86 and Riverside County moving into the red tier of the state's reopening framework, the California Department of Public Health (CDPH) has determined that schools are no longer required to provide ongoing asymptomatic testing for students and staff. As a result of this updated guidance, Romoland School District has stopped offering drive-thru asymptomatic testing at our elementary schools. **All schools will continue to provide symptomatic/response testing for students and staff who are attending on-campus, in-person instruction.**
