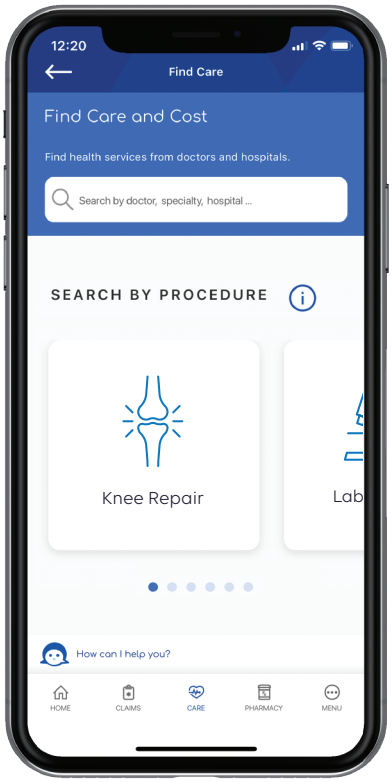
# Find high-quality doctors nearby and compare costs

Choosing a doctor you trust is important — and choosing one in your plan's network helps lower your costs. The **Find Care** tool on the Sydney℠ Health app and **anthem.com/ca** can help you do both.



## Helping you find the right care

The **Find Care** tool brings together details about doctors in your plan's network. You can customize your search by name, location, specialty, or procedure. You also can compare information such as costs, languages spoken, and office hours.* To make sure a care provider is in your plan's network, view the doctor or facility profile.

To help you find care providers who would be a good fit for you, we sort your search results and provide the top three matches using **Personalized Match.** There are more options available below your top three, and you can always re-sort these search results by distance or name.

After viewing your initial search results, you can filter your results by selecting the relevant boxes on the left or browsing by list or map views.

Sydney Health is offered through an arrangement with Carelon Digital Platforms, a separate company offering mobile application services on behalf of your health plan.

In addition to using a telehealth service, you can receive in-person or virtual care from your own doctor or another healthcare provider in your plan's network. If you receive care from a doctor or healthcare provider not in your plan's network, your share of the costs may be higher. You may also receive a bill for any charges not covered by your health plan.
