Prior Authorization & Step Therapy

Prior authorization is needed for certain medications. If you have questions on a particular drug, please contact Customer Service or visit express-scripts.com to perform a coverage check. Please have your doctor call Express Scripts at 1-800-753-2851 to go through a clinical review on your medication if it is subject to prior authorization.

Prior Authorization is a program that helps you get the prescription drugs you need ***with safety, savings and — most importantly — your good health in mind.*** It helps you get the most from your healthcare dollars with ***prescription drugs that work well for you and that are covered by your pharmacy benefit***. It also helps control the rising cost of prescription drugs for everyone in your plan.

The program monitors certain prescription drugs to ensure that you are getting the appropriate drugs for your disease state. It works much like healthcare plans that approve certain medical procedures before they're done, to make sure you're getting tests you need: If you're prescribed a certain medication, that drug may need a "prior authorization." ***It makes sure you're getting a cost-effective drug that works for you.*** For instance, prior authorization ensures that covered drugs are used for treating medical problems rather than for other purposes.

Drug Quantity Limits

The Drug Quantity Management program manages prescription costs by ensuring that the quantity of units supplied for each copayment are consistent with clinical dosing guidelines as recommended by the Food & Drug Administration (FDA). The program is designed to support safe, effective, and economic use of drugs while giving patients access to quality care. Express Scripts clinicians maintain a list of quantity limit drugs, which is based upon manufacturer-recommended guidelines and medical literature. Online edits help make sure optimal quantities of medication are dispensed per copayment and per days' supply.
